PROFESSIONAL EXPERIENCE

Support Technician (Garnet Gaming Lounge)

May 2026 - Present

FSU Student Union, Tallahassee, FL

- Provide front-line technical support for gaming workstations, software, networking, and hardware serving students, faculty, staff, and community members.
- Coordinate software updates, deployments, licensing, and maintenance for over 1,000 software titles.
- Explain technical concepts to users with varying levels of technical experience.

Social Media Director

May 2025 - Present

Askew Student Life Center, Tallahassee, FL

- Directed social media strategy across Instagram, Facebook, and YouTube, generating 5M+ organic views while increasing student engagement.
- Grew the @aslc_fsu Instagram community from 11,000 to 14,000 followers through content planning, design, and analytics.
- Collaborated with campus organizations to develop and maintain accessible, user-focused digital content supporting student engagement.

Principal Investigator and Lead UX Designer

May 2026 - August 2026

NASA Proposal Writing and Evaluation Experience (NPWEE) Program

- Managed an 8-member multidisciplinary team through project planning, technical coordination, and proposal development for a NASA research concept.
- Authored and edited major proposal sections, including the technology concept, work plan, project management, budget, and technical documentation.
- Led user-centered design efforts by conducting user research, evaluating interface concepts, and collaborating across engineering, science, and logistics teams to improve usability.

IT Helpdesk Technician

June 2025 - January 2026

FSU College of Communication and Information, Tallahassee, FL

- Provided comprehensive IT services to over 2,500 users at all academic levels, including hardware, software, and account problems, on Windows and Mac OS operating systems, in-person and remotely with Bombgar.
- Helped with hardware and software system setup, maintenance, and user accounts and permissions via Active Directory.
- Managed the correct and optimal count of over 500 endpoints with Lansweeper to improve asset tracking, compliance, and planning.
